PLEASE NOTE REPAIR NUMBER CHANGE

Beginning June 26, the number to call for repair service in South Bend and Mishawaka will change. The new number(s) to call will be as follows:

Home telephone customers: 556-4000

Public (Coin) Telephone Customers: 556-4000

Business telephone customers: 556-3000

If you have any questions about this scheduled change, call our Service Representative.

Indiana Bell

Directory adve standards

Millions of people "let their fingers do the walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

Readers also should know that steps have been taken to assure the reliability of the directory by making certain that all information meets our strict Advertising and Listing Standards. These standards are designed to bar listings or advertising copy that is misleading, inaccurate, makes unfair competitive statements, promotes unlawful activity or fails to comply with basic standards of good taste.

Of course, the fact that services and products are included in the Yellow Pages does not mean they are endorsed by the telephone company. Just as with any other form of paid advertising, it is up to you — the consumer — to be a smart shopper. Review advertising information carefully. Call the business if you have questions. Compare companies, products and prices.

If you are not satisfied with what you buy, call, write or visit the business to seek a solution. And if you still have a question or problem, remember there are consumer organizations, trade associations, law enforcement and other government agencies to contact for help.

Directory errors, omissions and liability

Notice to all directory users and customers —

Although every effort is made to make this directory as accurate as possible, errors or omissions sometimes occur. Indiana Bell does not guarantee the accuracy of listings and is not liable for damages resulting from errors or omissions in those listings for which no charge is made. Its liability in the case of listings for which there is a charge is limited to the amount the customer has actually paid for the listing during the life of the directory. Any error or omission should promptly be reported to the Business Office, whose telephone number appears on your monthly bill, so that we can correct our records.

Establishing Indiana Bell service at your home

Visit your Bell PhoneCenter Store
You can see all of our telephones at the PhoneCenter Store listed on this page. Place orders in person, take your telephone sets home and save part of the installation cost. You may also bring your phone in for servicing.

Call your Business Office
Service Representatives in your Business Office can help with orders as well as billing matters, rates, and inquiries or complaints (other than repair). Our representatives and their supervisors are there to see that you are completely satisfied.

Prewiring a new home or addition
If you are building a new home or remodeling your home, we can install telephone wires before the wall is put up. Often this means your telephones can be installed more neatly. Call our pre-wire specialist at 237-8400 for applicable charges and to arrange for this service.

NOTE: One week's notice is recommended for pre-wiring.

Information needed for your order
1. Complete street address (apartment number if applicable).
2. The type of home telephone service you want.
3. How you would like your directory listing to appear.
4. Information about previous telephone service.
5. Other credit information, including employment.

A deposit may be required
If you have a satisfactory payment record for telephone service within the last two years, you may not be asked to pay a deposit. If you have not had previous telephone service, you may be required to pay a deposit to obtain service.

A deposit ordinarily will be two months' estimated billing for your local and long distance service.

As an alternative to paying a deposit, you may provide a letter from another customer guaranteeing your account if that customer has established credit with us and his/her guarantee is acceptable to the company.

Deposits earn 6% interest
Deposits earn interest from the date of deposit at the rate of 6% per annum. However, a deposit is refunded after 9 months if your phone bills are paid by the date listed on the bill. The deposit is held as security if credit has not yet been established. If telephone service is disconnected, your deposit with earned interest is applied to your final bill.

An advance payment may be required
When you order new service, you may be required to make an advance payment to cover the installation charges. If you make an advance payment, it will be subtracted from your first month's bill.

Prompt payment means good credit
Your credit standing is determined by your promptness in paying your telephone bill. Payments should be received at the telephone company by the payment date on your bill. No telephone credit information is given out to other businesses.

Types of home telephone service

The following are basic types of phone lines in your area:

(Telephone exchange boundaries may differ from city boundaries. A zone charge may also apply depending on the location of your service.)

Private line — measured . . . This private line allows you to make 30 outgoing local calls each month without additional charges. You are then charged 15 cents for every call after the first 30. If you make few local calls each month, it may be less expensive than a private line-unmeasured service.

Two party line — unmeasured . . . This party line allows you to make all your local calls for the same charge each month.

Private line — unmeasured . . . This private line allows you to make all of your local calls for the same charge each month.

Four party line — unmeasured . . . This party line allows you to make all of your local calls for the same charge each month. A zone charge always applies in addition to the monthly charge. (This service not available in all areas.)

NOTE: Monthly rates are for access to the total communications network. Telephone instruments are not included.

Mishawaka, South Bend

Private line — measured	$ 5.93
Two party line — unmeasured	$ 7.43
Private line — unmeasured	$ 9.28
Four party line — unmeasured	$ 6.18

Osceola

Private line — measured	$ 5.93
Two party line — unmeasured	$ 7.88
Private line — unmeasured	$ 9.88
Four party line — unmeasured	$ 6.58

The rates on this page were correct as of the date this directory was printed. Current rates and charges are always available from your Business Office or PhoneCenter Store.

Charges to install and change your service

The one-time charges to install or change your service may vary, depending on the type of work that is done. Here is how we figure the charges.

Service order charge
You are charged for the processing of your order for telephone service.

When you install service . . . $25.00
When you make changes . . . $12.00

Central office connection charge . . $18.00
This charge is for the work we do to connect your line to our switching office.

Home visit charge . . . $10.00
This is the charge you pay when the installer visits your home.

Home wiring charge . . . $14.00
You pay this charge for each telephone outlet we move, install or change in your home.

Jack installation charge . . . $6.70
This charge applies for each jack installed.

Telephone handling charge . . . $3.00
You pay this for each telephone connected by an installer in your home.

Continued ▶

No charge to disconnect service
There is no charge to disconnect service. If you wish, charges can be stopped the day you call. You may be eligible for a credit for returning your telephone sets. Call your Service Representative for the details.

Optional services at additional charge

Call your Service Representative for current rates and charges.

Touch-Tone® Service
. $1.10 (each line)
ush-button calling.

can transfer your incoming calls to elephone number.

hree-Way Calling . . . $2.75
can add a third party to your ersation. This service can save the nse of some conference calls.

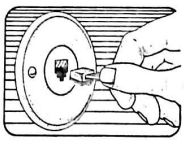
peed Calling . . . $2.25
an program your phone to dial ently called numbers using only a r two-digit code.

e package: order Call Waiting at and additional Custom Calling es are $1.35 each.

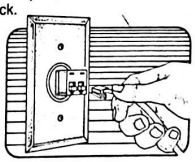
ces — Local Calls:
of emergency, a 25c charge applies me the Operator verifies a busy line. itional 25c charge applies if the or is asked to interrupt the line.

How to connect/disconnect your phones

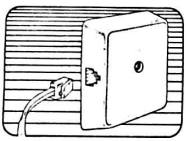
Drawings 1 through 4 show standard wall sockets, or jacks, for modular telephone cords. To install, match the plug at the end of the cord with the jack, and insert. To disconnect, squeeze the clip on the plug and pull it out of the jack.



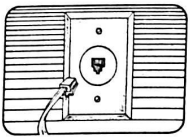
1



2

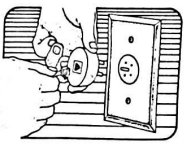


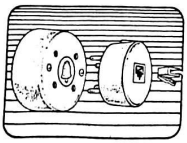
3



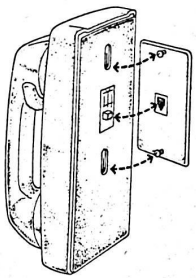
4

The drawings below show non-standard jacks. You can use these with modular phones by putting an adapter in between. Plug the adapter into the jack, then plug the cord into the adapter. Contact your Service Representative, or visit your PhoneCenter Store, for an adapter.





A wall mounted phone is shown below. To connect, match the holes in back of the phone with the wall mounting rivets. Push the phone lightly against the mounting and slide it down into place. To disconnect, slide the phone up to lift it off the rivets, then pull it away from the wall.



The drawings below show outlets for non-modular phones. These outlets can be converted for use with modular phones. Contact your Service Representative, or visit your PhoneCenter Store, for a conversion kit.

QUESTIONS ABOUT YOUR BILL

How am I billed?
Charges for your local service and equipment are billed one month in advance. Message units, long distance and telegrams are billed from the last bill date through the day prior to the current bill date; charges for installing or changing equipment are billed the same way.

How is my bill date determined?
Your billing date is determined by your telephone number and is the same date each month. It is shown on your bill.

When will I receive my bill?
You should receive your bill approximately 10 days after your billing date.

What is the Past Due After Date?
This is the date by which Indiana Bell should have your payment and is printed on your bill. It is 24 to 28 days after your billing date.

(NOTE: *If the payment is made at other than an Indiana Bell location, allow a few days to ensure that it reaches the company by the past due after date.*)

What happens if I can't pay my bill on time?
If you can't pay by the Past Due After date call your Service Representative. We may be able to make payment arrangements in case of illness or other circumstances beyond your control.

Indiana Bell does not apply an extra charge for bills paid after the past due date, but repeated late payments may impair your credit record with us. You may be requested to pay a deposit or an additional deposit as a result of late payments. Late payments may also result in your phone service being disconnected.

How can I get service restored if it has been disconnected for nonpayment?
All charges billed for service must be paid before your service can be reconnected. You will also have to re-establish your credit and, as a result, a deposit will probably be required.

You must also pay a charge to have your service reconnected. The cost would be $25.00 if the bill is paid in full within ten calendar days after disconnection. Beyond the ten calendar days, the charge would vary from $43 on up based on the type and amount of work.

What should I do about questions or mistakes on my bill?
Call your Service Representative who can answer questions, investigate possible errors and provide information about bills. Your Service Representative's telephone number is listed on page two of your bill.

Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

Use of the telephone near water.
The telephone should not be used while you are in a bathtub, shower or pool. Immersion of the telephone handset in water could cause an electrical shock.

Use of the telephone during an electrical storm.
You should avoid using a telephone during an electrical storm. Although the Bell System uses protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk of a dangerous electrical shock from lightning.

Use of the telephone to report a gas leak.
If you think you've found a gas leak, you should not use a telephone in the vicinity of the leak. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial.

Directory Assistance

How to call Directory Assistance

For local numbers dial:

1+411

For numbers within your area dial:

1+555-1212

For numbers outside your area dial:

1+Area Code +555-1212

For the telephone numbers of businesses and people who have "800" numbers dial:

1+800+555-1212

Customers who use a Telecommunications Device for the Deaf (TDD/TTY) can reach an operator by dialing:

1 + 800-855-1155

Charges for Directory Assistance

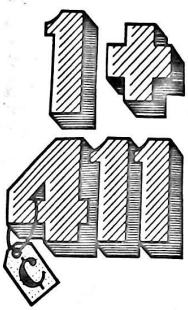
Indiana Bell customers have a basic five-call allowance each month for calls to local Directory Assistance **(1 + 411)**. Up to five additional calls to **1 + 555-1212** are allowed if the requests are offset by billed customer-dialed long distance calls within the home area code during the same monthly period. Directory Assistance calls over the allowance cost 20 cents each. Directory Assistance calls placed through the "0" Operator cost 40 cents each.

Directory Assistance charges do not apply to calls from hospitals and coin telephones.

There is no charge for Directory Assistance calls outside the customer's home area code.

Visually and physically disabled persons who cannot use the telephone directory may apply for exemptions from these charges through the Business Office.

Business customers with PBX service are allowed five calls monthly per trunk to local Directory Assistance **(1 + 411)**. Up to five additional calls to **1 + 555-1212** are allowed if the requests are offset by billed customer-dialed long distance calls within the home area code during the same monthly period.



Five ways to save on Directory Assistance charging

1. Use the directory. Most calls to directory assistance are for numbers which are listed.

2. Write down the numbers that you call frequently. You may wish to circle or underline a number in your directory to quickly find the number a second time.

3. To get the telephone number of someone who has recently moved, call the old number. A new number reference is generally provided.

4. You can save the cost of a second call to Directory Assistance if you can supply complete information the first time: exact location, accurate spelling and full names.

5. If you are not sure of the name or spelling of a restaurant, theater, store, or business, check the Yellow Pages under the appropriate heading.

How to obtain directories

Additional directories or directories for other areas may be obtained by calling your Business Office. In some cases, a charge may apply for out-of-town directories.

How to find names in the directory

Check alternate listings
"John James Company" might appear as "James John Company."
James John Co
Jensen A R
John James Co
Johnson C L

Disregard ampersands (&), hyphens (-)
Look up the listing as if it were two or more separate words.
King & Co
King John L
King-Masters Co
Kingston Paul

Disregard apostrophes
If you want the number for "Bob's Place," look for it as Bobs Place." Also, what you may think of as "Smith's Toy Shop" may actually be listed as "Smith Toy Shop."
Bob Shop
Bob's
Bob's Place

Government listings follow name of state, county or city
For federal agencies look under "United States Government." State, county and city government listings are alphabetical.
Anytown, City of
Centennial, County of
Indiana, State of

Initials precede first names
For example, "Jones, A" comes before "Jones, Albert."
Jones A
Jones A A
Jones Albert

Letters used in names
Names consisting of all capital letters such as radio and TV stations are listed at the beginning of the section.
W Ace Sales
WABD
W&W Appliance
Wabash, D

When letters precede a full name, also check the beginning of the section. For example, "A-1 Garage Inc" would be among the first listings in the "A" section.
A-1 Garage Inc
A&M Sandwich Shop

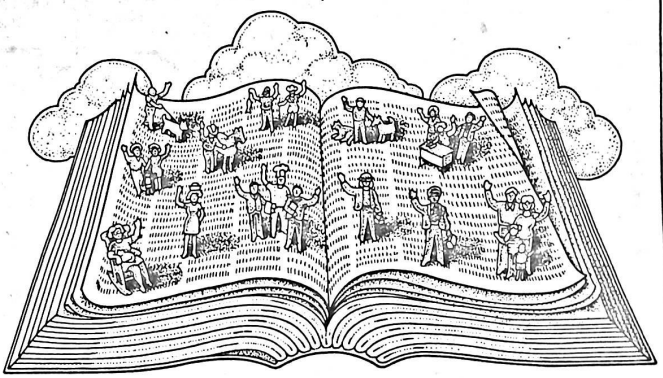
Numbers are spelled out
If used as names, numbers are alphabetized as if the word were spelled out. For example, to find "21 Cleaners" look as though it were listed under "Twenty-One Cleaners."
Twelves M A
21 Cleaners
Twenty-One Market Bldg
Two by Six
Twohy R M

Prefixes in names are alphabetized
For example, "MacNeil" follows "Macnab" and Macoy" follows "MacDonald."
Mac Tool Sales
MacDonald J B
Mac's Auto Inc
McDonald W E
Mead Albert

Spell out abbreviations
Certain abbreviations are listed as if the word were spelled out. For example, "St. James Hospital" is alphabetized as "Saint James Hospital."
Sainpolis Jane
St. James Hospital
Sais John
Sala E C

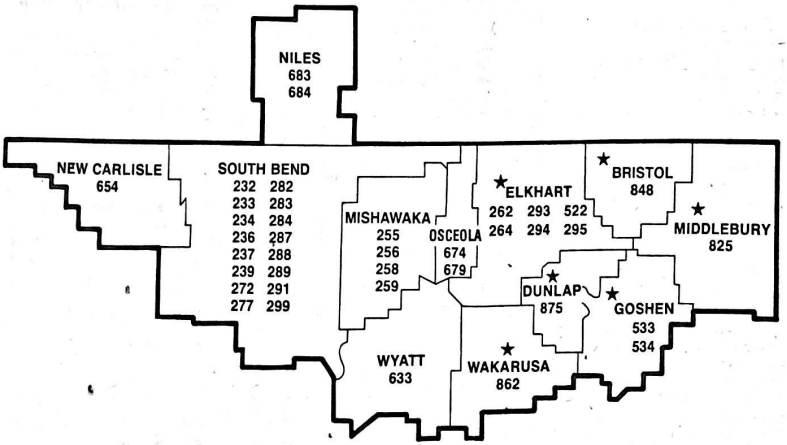
Spelling variations are cross referenced
Cross references are sometimes shown in the directory for names which are pronounced the same but spelled differently. Shaffer for example can appear as "Schaefer," "Schafer," "Schaffer," or "Shafer."
SHAFFER — see also
Schaefer, Schafer
Schaffer, Shafer

"The" usually follows a company name
For example, "The Brown Fabric Company" would be listed as "Brown Fabric Company, The."
Brown F D
Brown Fabric Co, The
Brown Frank
Browne B A



Mishawaka, Osceola, South Bend and vicinity

Community locations and numbers



The first three digits of telephone numbers within geographical locations are shown on this map. *It does not indicate your local calling area.*

Calling telephones in your local calling area

LONG DISTANCE CALLING

Dialing direct costs less

By dialing your own long distance calls, you will pay the lowest rate in effect and pay for only the minutes you talk (one-minute minimum).

To place a direct-dialed call:

within your area, dial

1 + the telephone number

outside your area, dial

1 + the Area Code + the Telephone number

redit for poor connections or rong numbers

hen you dial long distance and reach a rong number, have a poor connection other problems, hang up and dial "0" perator), right away. Explain what ppened so the Operator can arrange the proper credit. The faster the oblem is reported, the easier it will be give you credit.

ou have trouble dialing directly, call the erator and explain the difficulty. The call ll be placed for you, and you will be arged at the direct-dialed rate.

Operator-assisted calls cost more

Long distance calls requiring an Operator are more expensive. The minimum period for an operator-assisted call within Indiana is two minutes.Calls to other states it is three minutes. Calls placed from hotels and coin telephones as well as the types of calls listed in the next column are all operator-assisted calls.

To place an operator-assisted call:

within your area, dial

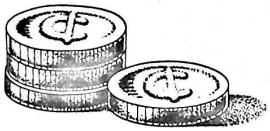
0 + the telephone number

outside your area, dial

0 + the Area Code + the telephone number

Customers who use a Telecommunications Device for the Deaf (TDD/TTY) can reach an operator by dialing:

1 + 800-855-1155



Types of operator-assisted calls

Collect calls

You may call collect if the person or firm you are calling agrees to pay the charges. Dial the call and when the Operator comes on the line, say you're placing a collect call and give your name. The Operator will leave the line when the person you've called accepts the charges.

Credit card calls

If you have a telephone credit card you can have long distance calls charged to your regular monthly telephone bill. Dial the call and when the Operator comes on the line, say you are placing a credit card call and give your credit card number. Credit cards may be obtained from your Business Office at no charge.

Third-number calls

You may have long distance charges billed to an authorized third telephone number. Dial the call and when the Operator comes on the line say you'd like to charge your call to a third number and give the Operator that number including the Area Code.

Time and charges

When placing a long distance call you may ask the Operator to tell you the length of time you talked and how much it cost. Dial the call and when the Operator comes on the line say that you will want time and charges when the call is completed.

Person-to-person calls

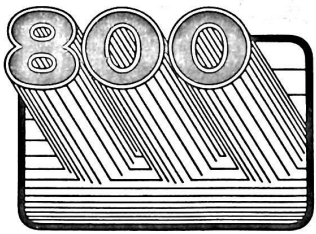
This is the most expensive type of long distance call. Call person-to-person when you wish to reach a particular person or extension number. Dial the call and when the Operator comes on the line, say you are making a person-to-person call and give the name of the person you want to talk to. The Operator will leave the line when the person you're calling has answered the telephone.

"800" WATS telephone numbers
Long distance calls can be made without charge when calling those businesses and people who have "800" WATS numbers. They offer this service to customers calling for specific locations.

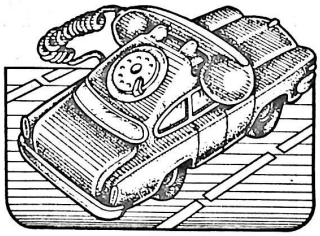
To call an "800" number dial:

1 + 800 + the telephone number

You can get the telephone numbers of those businesses and people who have "800" numbers by dialing:
1 + 800 + 555-1212

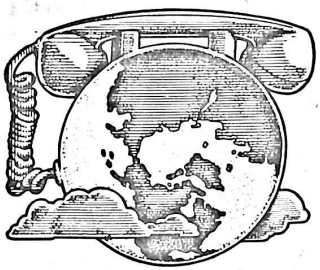


Mobile and marine calls
You can make local and long distance calls to automobiles, trucks, aircraft, boats and ships which have phones. Calls can be completed by dialing direct or calling the Operator. For information on other communication companies look in the Yellow Pages, under the headings of "Paging and Signaling" and "Radiotelephone Communications."



Conference calls
You can talk with several people in different places at the same time by dialing the Operator and saying you wish to make a conference call. Give the Operator the names and telephone numbers of the people you want to talk to. You may want to arrange a calling time in advance.

International calls
You can call practically anywhere in the world by dialing the Operator. However, some customers can dial overseas calls directly to many countries. See the International Calling section for more information.



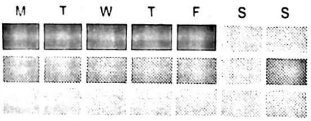
continued ▶

Lowest rates — dial-direct one-minute rates

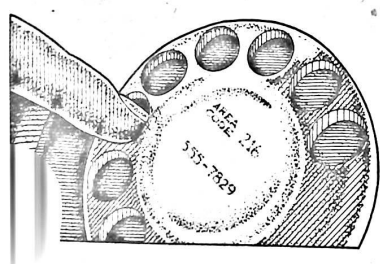
Dial-direct calls are those completed from a residence or business phone without operator assistance.

On dial-direct calls, **you pay only for the minutes you talk.** The initial rate period is **one minute** any time of day or night.

Additional savings apply evenings, nights and weekends.



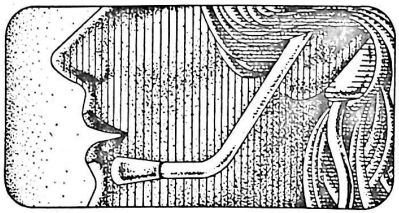
Dial-direct	Full (weekday) rates		Lower (evening) rates		Lowest (night & weekend) rates
Mileage examples:	First minute	Each additional minute	First minute	Each additional minute	Each minute
1-16 (between Gary & Crown Point)	.23	.15	.19	.11	.10
17-30 (between Crawfordsville & Lebanon)	.33	.21	.26	.16	.12
31-55 (between Kokomo & Indianapolis)	.43	.28	.33	.20	.14
56-100 (between Muncie & Crawfordsville)	.53	.34	.39	.23	.16
101-172 (between Evansville & Attica)	.62	.40	.43	.26	.16
173-244 (between South Bend & New Albany)	.69	.45	.46	.28	.16
245-316 (between Michigan City & Evansville)	.75	.49	.49	.29	.16



Highest rates — operator-assisted two-minute rates

Operator-assisted calls are those requiring the assistance of an Operator to complete the call. These include person-to-person, coin, collect, credit card, billed to a third number, hotel guest, and time and charge calls.

The initial period for all operator-assisted calls within Indiana is **two minutes,** and the full (weekday) rates apply all days at all hours.



Operator-assisted	Station-to-station		Person-to person	
Mileage examples:	First two minutes	Each additional minute	First two minutes	Each additional minute
1-16 (between Gary & Crown Point)	.50	.15	.95	.35
17-30 (between Crawfordsville & Lebanon)	.75	.21	1.20	.44
31-55 (between Kokomo & Indianapolis)	.99	.28	1.45	.54
56-100 (between Muncie & Crawfordsville)	1.17	.34	1.65	.61
101-172 (between Evansville & Attica)	1.34	.40	1.80	.67
173-244 (between South Bend & New Albany)	1.49	.45	1.95	.72
245-316 (between Michigan City & Evansville)	1.60	.49	2.05	.76

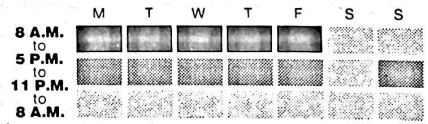
— **Holidays** — New Year's Day/July 4th/Labor Day/ Thanksgiving/Christmas Day calls are billed using the night rate.
— **A federal tax** applies to all charges.
— **Rates and periods** indicated subject to change without notice.
— **Charges are based** upon rates in effect at the time of connection at the calling point. This also includes calls beginning in one period and ending in another.

Lowest rates — dial-direct one-minute rates

Dial-direct calls are those interstate calls (excluding Alaska and Hawaii) completed from a residence or business phone without operator assistance.

On dial-direct calls, **you pay only for the minutes you talk.** The initial rate period is **one minute** any time of day or night.

Additional savings apply evenings, nights and weekends.



Dial-direct	Weekday full rate		Evening 35% discount		Night & weekend 60% discount

Philadelphia, Pa	2.50	weekend).	3.85	weekend).
St. Louis, Mo	2.45		3.70	
Washington, DC	2.50		3.85	

— **Holiday rates** are effective New Year's Day/July 4th/Labor Day/Thanksgiving/Christmas Day. On these legal holidays, the evening rate applies all day on dial-direct calls unless a lower rate would normally apply (nights & weekends).

— **On operator-assisted calls,** the discount rate applies only on additional minutes.

— **The Operator** can give you rates for **calls to Alaska and Hawaii.** Discounts of 30% (evening) and 55% (night and weekend) apply.

— **Federal Excise Tax** is not included in rates shown on these pages.

— **Discounted rates illustrated** are only approximate due to rounding. Charges are based upon rates in effect at the time of connection at the calling point, including calls beginning in one rate period and ending in another.

Area Codes and Time Zones

Indiana Area Codes

Each area has a three-digit Area Code. The Area Code for this directory is indicated on the front cover and on your telephone.

The Area Code of the telephone you are calling should be dialed, or given to the Operator if it is different from the Area Code of the telephone you are using. It should not be used if both Area Codes are the same.

When you give someone your telephone number, include your Area Code—it might be needed to place a call to you.

Consult Area Code list on page that follows for specific cities not indicated on these maps.

If you want the Area Code for a place not listed, dial the Operator.

How to dial international calls

You can dial many international calls directly if your phone number begins with:

255, 256, 258, 259 (Mishawaka)
674, 679 (Osceola)
232, 233, 234, 236, 237, 282, 283, 284, 287, 288, 289 (South Bend)

Dialing instructions

Station-to-station calls
To dial international calls, dial in sequence:

1. The International Access Code — 011
2. The Country Code
3. The City Code
4. The local telephone number
5. The "#" button — where telephone is equipped with Touch-Tone dialing.

For example:
To place a dialed station call to Frankfurt, Germany, dial:

International Access Code	Country Code	City Code	Local number	button if Touch-Tone dialing*
011 +	49 +	611 +	telephone +	#

*Touch-Tone dialing saves additional time by using this step.

Operator-assisted calls
To dial person-to-person, collect, credit card and billed to a third number international calls, follow the instructions given above but use **"01"** for the International Access Code. After the call is dialed, the Operator will come on the line to ask for information such as the name of the person you are calling or your credit card number.

After dialing any international call, allow at least 45 seconds for the ring to start.

Cost of international calls

(Sample rates for first three minutes)

Direct Dial	Day rates	Nights and Sunday
Station-to-Station		
France	4.05	4.05
Germany, Fed. Rep. of	4.05	3.15**
Italy	4.05	3.15
Japan	4.95	3.75*
United Kingdom	3.00	2.40

Note: If you cannot dial your call directly because your exchange is not presently equipped for international dialing, the lower dial rate will still apply.

Operator-assisted	Day rates	Nights and Sunday
Station-to-station (collect, credit card, bill to third number, coin)		
France	7.05	7.05
Germany, Fed. Rep. of	7.05	5.40**
Italy	7.05	5.40
Japan	9.45	5.70*
United Kingdom	5.70	4.25
Person-to-person		
France	12.60	12.60
Germany, Fed. Rep. of	12.60	9.45**
Italy	12.60	9.45
Japan	12.60	5.70*
United Kingdom	10.10	7.50

*Reduced rates apply Sunday only.
**Reduced rates apply Nights only.

Rates shown do not include Federal Excise Tax and are subject to change without notice. Time periods for rates may vary in some countries.

For rates on calls to other international points, information on lower night and weekend rates, as well as time periods when rates apply, please call the Operator. A brochure on international calling is also available from your Business Office or PhoneCenter Store.

Additional assistance or information
Dial **"0"** (Operator) if you need assistance:

1. To obtain a telephone number you don't know
2. To obtain City Routing Codes not listed in this section
3. For help in completing a call
4. For credit on a call on which you had difficulty, e.g., reached a wrong number.

To place a call to the Bahamas, Bermuda, Canada, Puerto Rico and the Virgin Islands
Calls to these points can be dialed in the same manner as long distance calls within the United States. Simply dial **"1"** plus the appropriate Area Code and the local number. Area Codes are on page 18.

To call Mexico

Most locations in Mexico can be reached by using the International dialing (**011** +) instructions.

If you cannot use International dialing from your telephone, some Mexican cities can be dialed using special access codes with city codes. (See next page for some city codes).

Mexico City: Dial **90** + **5** (the city code) + local number

Northwest Mexico: Dial **70** + city code (2 or 3 digits beginning with "6") + local number

Discounts to Canada

35% discounts apply between 6 p.m. and midnight (Monday-Saturday), and from 8 a.m. to midnight (Sunday). A 60% discount applies from midnight to 8 a.m. (Monday-Sunday). Discounts apply to total charges for dial station calls and to additional minute charges for operator station and person calls.

Codes for many countries and cities

Numbers beside countries are "Country Codes." Numbers beside cities are "City Codes."

For all other international points not listed in this section, dial **"0"** and tell the Operator the country you are calling.

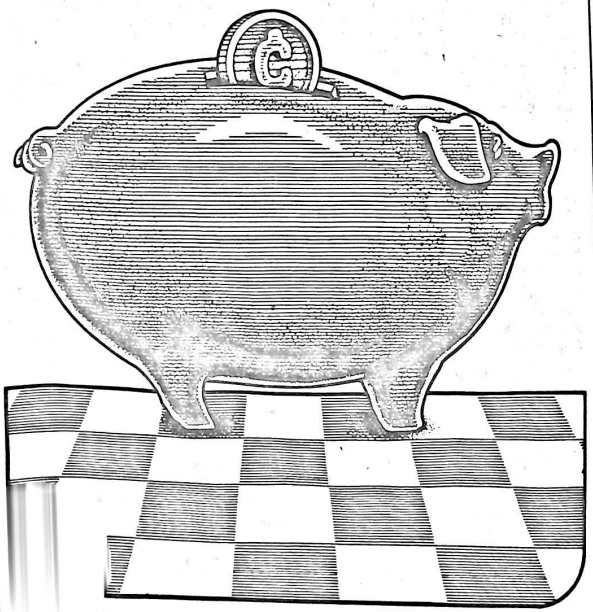
Money Saving Tips

Use left-in equipment
If the telephones have been left by the last resident of your new home or apartment and you are satisfied with them, be sure to mention this to the Service Representative when you order your telephone service.

Install everything at once
Every time you have telephones installed or service changed, certain one-time charges apply. Save money by having all installation work done at one time.

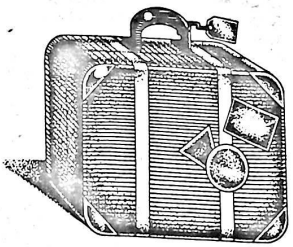
Letter of guarantee instead of deposit
You have the option of providing the telephone company with a letter from a person or firm with established telephone credit willing to guarantee payment of your bills. This can be used instead of a deposit.



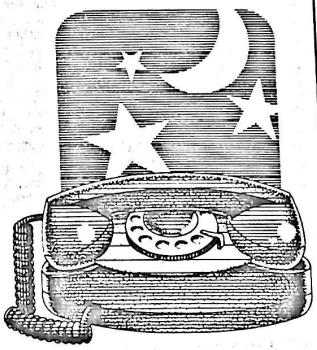
Order service at the Bell PhoneCenter Store
You can save part of the installation costs by going to the Bell PhoneCenter Store and picking up your telephones.

Schedule and plan your calls
If you call someone frequently, try to set a specific time when he or she will be there to receive your long distance call. That way, you can always call station-to-station and save. Plan the things you want to say to save calling time.

Make special arrangements when you go on vacation
If you are going to be gone for one month or more, call you Service Representative to have your phone put on vacation rate service. The vacation rate is lower than most regular rates and may save you money, although there is a charge for this service. Your calls may be referred to another number while you are away for an additional charge.



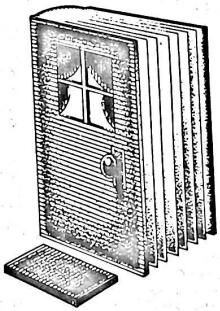
Call during bargain times
Rates on direct dial long distance calls are lower during evening, night and weekend hours. Also, take advantage of holiday rates on New Year's Day, July 4th, Labor Day, Thanksgiving and Christmas Day.



Take and save when moving
If you are moving, ask your Service Representative about our Set Recovery Plan. You may save $4 for each telephone you return to us or reuse at your new location.

Ask for a pay phone refund
If one of our pay phones collects your money but you don't talk to anyone, report it by dialing the "0" (Operator) from another phone. We'll see that the phone gets fixed and mail you a refund.

Look in the book
You can avoid Directory Assistance charges by looking up your own numbers in the directory. Also, jot down frequently called numbers and keep them next to your telephone.



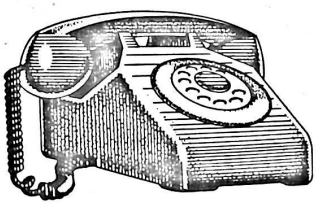
Dial direct and save
It costs less when you dial long distance calls yourself.

Collect, credit card and coin phone calls require the services of an Operator; so do requests for time and charges and calls billed to another number. Calling person-to-person always costs the most.

Ask for credit on poor connection
If you have a poor connection or are cut off on a long distance call, both parties should hang up. If you made the call, tell the Operator and ask to be reconnected. You will also get an adjustment.

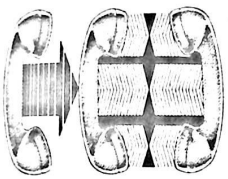
Save money on basic service
Choose telephone service that is best for you. A plan with unmeasured service is no bargain if you don't make many local calls. Likewise, a measured service plan with a low basic charge but extra charges for calls over your allowance will not save you money if you make many calls. Your Service Representative can help you pick out what best matches your budget and calling needs.

Extra equipment costs more
If you're on a limited budget, consider having only one rotary dial phone for your home. Telephone service without Touch-Tone dialing, extension phones, or additional services saves money. You still have a variety of colors and wall or desk models to choose from at no extra charge.



Ask for credit for wrong numbers
When you dial long distance and reach a wrong number, hang up and dial "0" (Operator) right away. Explain what happened so the Operator can arrange for the proper credit. The faster the problem is reported, the easier it will be to give you credit.

If you are billed for a long distance call that you did not make, call your Service Representative.



Call Waiting

(Enables you to answer an incoming call when you're already on the phone.)

Two short tones (10 seconds apart) signal an incoming call is waiting. The person you are talking with will hear a slight click. The incoming caller hears only normal ringing.

TO ANSWER A WAITING CALL —
If you wish to hold the first call while answering the second call, depress the switchhook once firmly (1 second) and release it immediately. You can now talk to the second caller.

TO RETURN TO THE FIRST CALL —
Depress the switchhook once firmly (1 second) and release it immediately. Using this method, you can switch between the two calls as frequently as you wish.

TO TERMINATE EITHER CALL —
After ending conversation with either party, and they hang up, depress the switchhook once firmly (1 second) and release it immediately. You can now talk with the party remaining on the line.

If you don't wish to answer a call waiting signal, simply continue talking.)

If you have any questions on how Custom Calling operates, call:
Business Phones 800-382-2088 (8 a.m. to 5 p.m. weekdays)
Residence Phones 800-622-4949 (9 a.m. to 6 p.m. weekdays)

Three-Way Calling

(Enables you to add a third party to your conversation. Two of the three parties may be long distance.)

To add a third party:

(1) **DEPRESS THE SWITCHHOOK FIRMLY (1 SECOND) AND RELEASE IT IMMEDIATELY.**
This "excludes" the first party.

(2) **LISTEN FOR THREE SHORT TONES FOLLOWED BY DIAL TONE.**

(3) **DIAL THE NUMBER OF THE THIRD PARTY,** plus the area code if it's a long distance call. (If you have Speed Calling, and the party you wish to add is on your code list, dial the code instead of the regular telephone number.) After the third person answers, you may talk before returning to the original call.

(4) **TO ESTABLISH THREE-WAY CALLING,** depress the switchhook firmly (1 second) and release it immediately.

(5) **IF THE THIRD PARTY IS BUSY, OR DOES NOT ANSWER,** depress the switchhook twice firmly (1 second each time) and release it immediately. Another third party can be added by repeating steps 1 through 4.

To remove a party:

- **REMOVING THE THIRD PARTY IN A THREE-WAY CALL —** After the third party hangs up, depress the switchhook firmly (1 second) and release it immediately. A new third party may be added.
- **REMOVING THE ORIGINAL PARTY IN A THREE-WAY CALL —** If the original party wishes to drop out, he or she merely hangs up. A two-party call between you and the third party remains. Add another third party by repeating steps 1 through 3. (The original party must wait 15 seconds before making another call.)

To end a three-way call: All three parties are automatically disconnected when you hang up. (Wait 15 seconds before placing another call.)

Call Forwarding

(Enables you to forward incoming calls automatically to any telephone number.)

To forward calls:

(1) Dial **72** (and the "#" button if your phone has one).
Listen for dial tone.

(2) **DIAL THE NUMBER** to which you want your calls forwarded.

(3) **WAIT FOR THE CALLED PARTY TO ANSWER** and stay on the line for at least 4 seconds. Call Forwarding is now in effect.

(4) If the called party does not answer, or the line is busy, hang up and repeat steps 1 and 2. Call Forwarding will automatically be in effect **whether or not** the called party answers.

To restore normal answering:

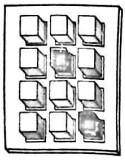
(1) Dial **73** (and the "#" button if your phone has one).

(2) **LISTEN FOR TWO SHORT TONES** and then dial tone. Call Forwarding has been cancelled.

Some tips:

- Long distance charges apply to calls forwarded to numbers outside your free calling area. However, you are billed only for applicable charges between your phone and the number to which your calls are being forwarded. (A local message charge applies for each call forwarded from a measured service telephone).
- Notify the person who will receive your calls.
- Call Forwarding continues until you cancel it.
- You can make "outgoing" calls from your telephone while call forwarding is in effect.
- One short ring will be heard at your telephone when a call is being forwarded. You cannot answer this call from your telephone.

Speed Calling



(Enables you to reach up to 8 local or long distance numbers by dialing only a few digits. List your numbers, with their abbreviated codes, on the chart provided.)

To place a call:

(1) **LISTEN** for a dial tone.

(2) **DIAL THE ABBREVIATED CODE** (and the "#" button if your phone has one) for the number desired.

To establish or change numbers:

(1) **LISTEN** for dial tone.

(2) Dial **74** (and the "#" button if your phone has one).

(3) **LISTEN** for dial tone.

(4) Dial the abbreviated code, followed by the number you want to program (include the access and area code if long distance).

(5) **TWO SHORT TONES, FOLLOWED BY DIAL TONE, WILL CONFIRM** the abbreviated code and telephone number have been programmed. If you receive a "busy" signal, hang up and repeat steps 1 through 5.

Repeat steps 1 through 5 for each telephone number you wish to program.

Example: To program the number 555-1234 for abbreviated code 2 (1) simply Dial **74** (and the "#" button if your phone has one). Listen for dial tone. (2) Dial **2**. Dial the number **555-1234.**
